

End of Sale Announcement

PCM+ (ProCurve Manager Plus) Suite of Products

Announcement Date: February 5, 2013

Planned End of Sale: July 1, 2013

Planned End of Sale for Maintenance Licenses: July 1, 2015

HP PCM+ Network Management Suite

HP PCM+ Network Management Suite is a network management platform that enables mapping, network and device configuration, monitoring, service monitoring, and network diagnostics. It provides security and extensibility for small to large networks with remote sites. Network-wide management control allows users to securely add, customize, and restrict network management access.

Due to the release of Intelligent Management Center (IMC) Basic and IMC Basic WLAN , HP is announcing the End of Sale of the entire set of all HP PCM+ products listed in the table below.

IMC comes in a variety of platforms to suit the needs of small, medium, or enterprise businesses, and also provides a highly flexible architecture that enables owners to easily add additional features and management modules to the IMC platform as their business grows.

The products affected by this announcement are:
